RoHS

(Restriction of the use of certain Hazardous substances in electrical and electronic equipment)

Dear Customer,

The European Union (EU) has adopted a regulatory framework RoHS (Restriction of the use of certain Hazardous substances in electrical and electronic equipment).

NMC is a Downstream user of chemical substances, and as such, we are actively cooperating with our suppliers to ensure compliance with the RoHS- directive requirements.

Based on information received from our upstream suppliers, we hereby confirm that all the articles are in compliance with RoHS 2011/65/EU and 2015/863/EU directives.

This conformity hasn't been approved by testing but based on information coming from our raw materials suppliers. Though dangerous substances aren't added intentionally, the presence of impurities or insignificant traces coming from the contamination of the raw materials cannot be excluded.

Annotation

This confirmation is valid for one (1) year from the date of the document.

This information is based on our best knowledge. However, it doesn't constitute a guarantee of our product's characteristics and doesn't engage in any case our liability. Unless agreed in writing to the contrary, our technical documents as to the practicality the behaviour or the potential performances of the goods are made on unindicative basis and depending on the most common use of the goods under normal conditions of application, use and climate (temperate regions of Europe) or the use which has been notified to us in writing by the client.

Subject to the existence of a misrepresentation of serious fault on our part, such recommendations and other technical documents are not binding upon us. It is for the client to check them and verify their suitability for the intended use.
