Declaration of compliance with REACH Regulation (EC) No 1907/2006, Article 33 — Communication of SVHC information

Dear Customer,

Being a converter of plastic materials, NMC Cellfoam acts as a downstream user of chemical substances in close collaboration with its raw-material suppliers. We work to ensure efficient communication throughout the supply chain and to fulfill all applicable environmental, health, and safety requirements. NMC Cellfoam takes this responsibility seriously and continually works towards sustainable practices and full compliance with relevant legislation.

Object of the declaration

This declaration applies to:

- All products manufactured and supplied by NMC Cellfoam, unless otherwise specified.

Declaration

We hereby declare that the above-mentioned products, as supplied by NMC Cellfoam, do not contain any substances of very high concern (SVHC) above the 0.1% (w/w) threshold, as listed on the ECHA Candidate List in force on the date of this declaration.

Regulatory information

- Regulation name and reference: REACH Regulation (EC) No 1907/2006, Article 33
- Main requirements: Obligation to inform customers if any Candidate List substances are present in articles above 0.1% (w/w) concentration.
- Additional clarifications: The products have been evaluated using supplier declarations and material composition data. None of the substances currently listed on the ECHA Candidate List exceed the 0.1% threshold in our supplied products.

Validity of declaration

This declaration remains valid unless changes occur that affect the compliance status of the products supplied to you. Should such changes affect your products, NMC Cellfoam will inform you accordingly.

Disclaimer:

The declaration is based on our current understanding of the regulatory requirements, our production processes and information provided by our material suppliers. It doesn't constitute in any matter a guarantee, nor does it engage in any way NMC's liability. The customer bares the responsibility to check suitability of products listed in the legislation for their intended use.
